YUSUF ODETOLA

Frontend Developer & Arabic Digital Designer | React, Next.js, TypeScript

London, UK | +44 7575 115575 | odetolayusuf95@gmail.com | github.com/yusufodetola

PERSONAL PROFILE

Frontend Developer with hands-on experience building responsive, scalable and user-focused web applications using React, Next.js, TypeScript and TailwindCSS. Skilled at translating UI/UX designs into high-performance, maintainable code. Best Graduating Student at Notzero Academy and a Google UX Design Professional Certificate holder, with additional training in AI automation (n8n) and prompt engineering. Also a professional Arabic Digital Designer since 2013, specialising in Arabic typography, professional Arabic typing, content formatting and visual presentation, which supports bilingual and right-to-left (RTL) interfaces. Seeking a frontend developer role in the UK where I can deliver polished, accessible products as part of a collaborative team.

KEY SKILLS

Languages & Frameworks: JavaScript, TypeScript, React, Next.js, Node.js, HTML5, CSS3, SASS

UI Libraries & Styling: TailwindCSS, Bootstrap, Shadcn/ui, Context API, Vite

Tools & Workflow: Git, Postman, Firebase, REST API integration, Testing, Deployment

Arabic Digital Design: Arabic typography, professional Arabic typing, Arabic content formatting, visual presentation, RTL layouts

Design & Automation: Figma-to-code, UX Design, Photoshop, CorelDRAW, n8n AI automation

WORK EXPERIENCE

Freelance Frontend Developer | Upwork **May 2026 – Present**

Self-employed, Remote

- Built and delivered responsive frontend solutions for international clients using React, Next.js and TailwindCSS.
- Converted Figma designs into pixel-perfect, mobile-friendly web interfaces with strong attention to detail.
- Developed reusable components and scalable frontend architectures to speed up delivery and improve maintainability.
- Integrated REST APIs and third-party services to create dynamic, interactive user experiences.
- Worked directly with clients to gather requirements, provide project updates and implement feedback efficiently.

Arabic Digital Designer | Self-employed / Freelance **May 2013 – Present**

Arabic Typography, Typing & Visual Presentation

- Provide professional Arabic digital design services, combining Arabic typography, accurate typing and clean content formatting for digital and print materials.
- Format and present Arabic content with correct letter-joining, diacritics, right-to-left alignment and readable layout.
- Design visually consistent documents and presentations in Arabic, adapting style and typefaces to each client and audience.
- Apply Arabic typography and RTL expertise to frontend work, supporting bilingual Arabic/English web interfaces.
- Built long-term experience delivering accurate, polished work to client requirements and deadlines.
